

MEET SONI

Senior Software Engineer

+919974441486 • dev.meetsoni@gmail.com • linkedin.com/in/meet-soni-755774a6/ • Vadodara, Gujarat

Summary

Senior .NET Full Stack Engineer with **9.5+ years** of experience building scalable, secure, and high-performance enterprise applications and cloud-native solutions.

Strong hands-on experience in system design, application architecture, technical leadership, cloud-native development, performance optimization, and engineering best practices. Experienced in leading technical initiatives, mentoring engineers, conducting code reviews, driving architecture decisions, and collaborating with customers and cross-functional stakeholders.

Experience

HCLSoftware

Remote

Senior Software Engineer 3

08/2024 - Present

- **Led and mentored team members**, providing technical guidance, resolving complex engineering challenges, and promoting engineering best practices.
- Contributed to **technical architecture and design decisions**, evaluating trade-offs and driving scalable, maintainable solutions for the product.
- Worked on HCL AppScan A360, a security product focused on **Dynamic Application Security Testing (DAST)**, delivering enterprise-grade security capabilities.
- Translated customer requirements and product needs into technical solutions, collaborating with stakeholders to deliver new features and product enhancements.
- Drove engineering initiatives and internal tooling, including Argo CD-based release validation tools and a centralized dashboard for product release versions and information.
- Performed **code reviews and technical assessments**, ensuring code quality, maintainability, security, and alignment with architectural standards.

Neudesic

Remote

Senior Consultant 1

03/2023 - 08/2024

- Delivered enterprise **application enhancements and new feature development using C#, .NET Core, Angular, Python, and SQL Server**, contributing to scalable and maintainable solutions across multiple client applications.
- Led customer requirement gathering and technical discussions, translating business requirements into actionable technical solutions and development plans.
- Designed and implemented a Python-based automated data-fix application, **saving 480+ man-hours annually by reducing repetitive manual data correction activities**.
- Improved **system stability and code quality by ~30%** through deployment automation, engineering process improvements, and adoption of development best practices.
- Collaborated with cross-functional and customer teams to **troubleshoot production issues, evaluate technical solutions, and ensure successful delivery** of features and enhancements.

Neudesic

Remote

Consultant 2

12/2021 - 02/2023

- Implemented deployment automation and DevOps improvements, helping enhance application stability, deployment consistency, and overall code quality.
- Worked with **AWS and Azure environments and contributed to CI/CD, deployment**, and cloud-based application delivery activities.
- Contributed to application **observability and monitoring, assisting teams** in identifying, troubleshooting, and resolving application and production issues.
- Participated in **peer code reviews, applying coding standards and best practices** to improve maintainability and reliability.

Radixweb

Ahmedabad, India

Senior Software Engineer

02/2021 - 12/2021

- Built and delivered a machine learning application serving **1,000+ users using Python, Flask, and TensorFlow, contributing to the end-to-end development lifecycle**.
- Improved **project delivery speed by 30% by implementing Google Cloud deployment** practices and adopting Agile development methodologies.
- **Mentored 5 junior developers**, providing technical guidance, knowledge sharing, and support to improve their development skills and productivity.

Experience

Numerator

Vadodara, India

Engineer 1

01/2019 - 02/2021

- Developed and maintained **100+ automated price-tracking web crawlers using C#/.NET/Angular and Python**, enabling large-scale collection of market and competitive pricing data from diverse web sources.
- Built **scalable web scraping and data extraction solutions**, handling dynamic web content, varying page structures, data validation, and reliable extraction pipelines for high-volume market data.
- Led **internal hackathons, developed automation solutions**, and explored new technologies to address business challenges.

Odysseus Solutions

Vadodara, India

Junior Software Developer

06/2017 - 01/2019

- Built and enhanced backend services using **C#, .NET, and ASP.NET Web API**, contributing to scalable and maintainable travel technology solutions.
- Integrated more than **five third-party APIs for external travel and booking services**, handling API communication, data transformation, validation, and error handling.
- Worked extensively with **XSLT and XML-based data transformation** to integrate and process data across multiple external systems.

Skills

Programming Languages:: C# · Python · JavaScript · SQL

Backend & Frameworks:

.NET 8+ · .NET core · ASP .NET MVC · Web API · Entity Framework core · Flask · REST APIs · Microservices

Frontend: Angular · HTML5 · CSS · JavaScript

Databases: SQL server · MongoDB

Architecture & Engineering:

System Design · Microservices Architecture · Design Patterns · SOLID Principles · Clean Architecture · TDD · Code Review · Performance Optimization

Cloud: Microsoft Azure · AWS · GCP

DevOps & Platform Engineering: Docker · Kubernetes · Helm · Jenkins · Azure CI/CD · Argo CD · Git

Security: DAST · HCL AppScan

Automation & Data: Python Automation · Web Scraping · Data Extraction

Certifications

Microsoft Azure Fundamentals(AZ-900) — Issued by Microsoft on Mar 2022

Microsoft Azure AI Fundamentals(AI-900) — Issued by Microsoft on Aug 2022

Developing Microsoft Azure Solutions(AZ-204) — Issued by Microsoft on April 2023

AWS Associate Developer(DVA-C02) — Issued by AWS on Dec 2024

Azure AI Engineer Associate(AI-102) — Issued by Microsoft Nov 2025

Education

Parul Institute of Engineering & Technology

Vadodara, India

Bachelor of Engineering, Computer Science

06/2013 - 05/2017
